Soft Skills: Problem-solving, Multi-Lingual Communication, Time Management, Adaptability, Collaboration

Work Experience

Wetzel's Pretzels

December 2024 – October 2025

Customer Service Associate / Cashier

Montréal, QC

- Built strong customer relationships, fostering loyalty and increasing return visits.
- Served up to 80 customers per shift, preparing orders to customers' satisfaction.
- Processed orders using the POS system, handled cash and card transactions totaling \$700+ per day with 100% accuracy.
- Worked with team members to restock shelves and maintain store cleanliness.
- Performed safety protocols and hygiene standards, passing 100% of health inspections.

Mojo Ink.

March 2023 – August 2023

Junior Project Coordinator

Abu Dhabi, UAE

- Assisted project managers in planning, scheduling, and monitoring project activities to ensure timely delivery.
- Coordinated meetings by preparing agendas, recording minutes, and tracking follow-up action items.
- Maintained and updated project documentation, reports, and progress trackers.
- Monitored timelines, deliverables, and milestones, escalating risks or delays to management.
- Prepared concise status reports and presentations summarizing project progress for leadership.
- Collaborated with both internal and external software developers to define technical requirements and align project tasks with sprint goals.

Projects

Music Shop Website ([GitHub Repository](#))

March 2025

- Developed a PHP-based music shop website with branded homepage, product ordering system, and order management page
- Implemented tax-calculated order totals and dynamic styling based on order values
- Enabled URL parameter support for customizable page display options

The Quest ([GitHub Repository](#))

January 2025 – April 2025

- Built a 2D Unity platformer with C# and Firebase, featuring multi-level progression and user accounts
- Integrated authentication, profile management, and adjustable audio settings
- Created tutorial, settings, and profile interfaces with enhanced visual effects

Education

DEC – Computer Science (Programming)

August 2023 – Present

College LaSalle

Montréal, QC

Related Coursework: Computer Tools, Databases I /II, Multi-Tier Applications, Object Oriented Programming, Android Mobile Development, iOS Mobile Development, Information Systems Implementation
